

Screen-printed Flags

Flexible design options and a light-fast, vibrant and effective finish makes screen-printed flags an ideal choice for larger flag quantities.

Every flag is printed on state of the art machinery combining accuracy and speed of printing. As exact Pantone colours are used the finished design is accurate, pin-sharp and intense.

Using high-quality, environmentally-friendly water dyes and a meticulous setting process means that each finished flag is washable whilst retaining the colour sharpness.

Hampshire Flag offers the screen-printing process as a cost-effective option for bulk orders without sacrificing quality.

Screen printed flags – optimise the impact of images

Key features:

- Printed to Pantone colours with colour mixing precision to 1/10th of a gram
- Pin-sharp finish
- Washable, strong and non-fading flags
- Cost-effective for bulk orders
- High-quality dyes
